Re: Notice of Debarment

Dear Mr. Concepcion:

By letter dated January 5, 2005, you were notified that the Defense Logistics Agency was proposing to debar you from Government procurement, nonprocurement and sales programs. That letter provided you with an opportunity to submit information and argument in opposition to the proposed debarment. To date, you have not responded.

Based upon the information in the administrative record, I have determined that protection of the Government's interests requires your immediate debarment from Government procurement, nonprocurement and sales programs. The debarment continues for three years from January 5, 2005, the date you were proposed for debarment from Government contracting. Your debarment terminates on January 5, 2008.

The January 5, 2005, Notice of Proposed Debarment states the effects of the debarment.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Chadick", is positioned above the typed name.
